Come to VYC for a delicious dinner on Saturday, February 27, and learn about Afghanistan, past and present, from someone who knows: Afghan-born Tamim Ansary, author of best-selling books including *West of Kabul, East of New York*; *Destiny Disrupted: A History of the World Through Islamic Eyes*; and most recently, *The Widow's Husband*, set in Afghanistan during the First Afghan-British war, an eerie precursor to America's involvement in that country today.

Ansary gained instant fame two days after 9/11, when he emailed his view of the horrific events to friends. Virus-like the email spread worldwide to millions of people.

Copies of *The Widow's Husband* will be available for purchase for \$15.
