

Hey all, sorry I have a correction sent to me from Sunday. Please read below.
Kelly

Hi Kelly,

The crew has not reached Tahiti, they reached Hiva Oa in the Marquesas Islands.
There is a huge difference. Hiva Oa is approximately 800 miles SW from Tahiti.
They were not going to Tahiti first, the goal was the Marquesas, in case you need to update all.
They were supposed to leave Hiva Oa today or tomorrow to go to another island and eventually travel The Society Islands.
